

Project Management

ROLL NO	1234	DATE	2026-05-02
STUDENT	-	TEACHER	Vaibhav

TOTAL SCORE

5.5 / 20.0 (27.5%)

QUESTION-WISE MARKS

Q. NO	MAX	SCORED	FEEDBACK
1	2	1	The student has provided a vague definition of Project Organization, mentioning a group of individuals handling a project. However, it lacks depth and doesn't clearly explain the features as expected in the answer key.
2	3	0	The student has not attempted question 2 explaining the PMBOK knowledge areas.
3a	1.5	1	The explanation for Characteristics of Project is partially correct, mentioning accessibility and functionality, but it lacks the standard project characteristics like uniqueness, temporary nature, etc.
3b	1.5	1	The explanation of Project Sponsor is decent, correctly identifying them as individuals/companies providing funds or equity. Examples provided are relevant.
4	4	2.5	The student has attempted the Project Life Cycle phases with a custom diagram (Idea, Calculation, Architecture, Organization, Development, Testing, Maintenance). While not standard (Initiation, Planning, Execution, Closure), it shows an understanding of software/product development cycles. Feasibility report is briefly touched upon.
5	4	0	Question 5 is not attempted in the provided student answer sheet.
6	4	0	Question 6 (DCF/NPV calculation) is not attempted in the provided student answer sheet.

OVERALL FEEDBACK

The student has demonstrated a very basic, generic understanding of project management concepts. The answers lack academic rigor and technical terminology expected at this level. Important numerical and conceptual questions (Q2, Q5, Q6) were completely skipped.

STRENGTHS

- Attempts to use practical examples to explain concepts.
- Shows basic intuition about software development phases.

AREAS TO IMPROVE

- Fails to use standard project management terminology (e.g., standard PMBOK knowledge areas or lifecycle phases).
- Completely skipped numerical and core conceptual questions.
- Poor articulation and unstructured answers.
